

Your Troop can participate in the first of five council-wide conservation projects for 2016! We will be cleaning up waste at Kepp's Crossing in Idaho Falls. This is a great opportunity to join with scouts from all over the council and get service hours done! The Project will take place May 7th, with Check-in beginning at 8:00 AM

Order of the Arrow Lodge Shunkah Mahneetu will be leading this service project. This is also a great opportunity to expose scouts to Scouting's National Honor Society.

Directions: Go East on East Sunnyside until you reach Bone Road. You then turn Left on Bone and continue until you reach Kepp's Crossing road to the right. Continue down this road until you reach the project.
